The mandatory movie theatre equates to confusion, for me, a factor that may be a reprieve for some, but is a kind of torture for others. I am taken by the mother to visit the father, court orders ordering me around, once a month at the movies by the lakefront. This proves useful in my juvenile avoidance tactics that I take part in when I wear more than shyness; I wear slate for clothes \wedge I have eyes magnetized to anything but the human face \wedge instead of vocal chords I have piano wire \wedge I hide the spasms that occur between my wrist bones \wedge my fingertips. The knowledge of a divorce that led to custody rights is ever available, which I do ~ believe I was aware as a child of paperwork that could grimace \wedge smile \wedge joke \wedge question

whole. Nothing about my family unit is 'whole', it does ~ contain noises, snaps, v' outlined cut by a small child's scissors on the paper alongside crayon etchings \vee watercolors. The handiwork leaves much to be desired, not by the child, who is me, but by the parents, who have degrees in the arts. Instead, my juvenile mind is wasted \wedge watered down, as if drunk, which I won't know for more than half a decade \wedge will remember the smell, save for when alcohol washes into the pores \wedge the blackheads \wedge any other acne. To burn means it works, it cleanses, it raises the possibility of possibly what? Less infection? That seems like the healthy idea. I must have thought, though I'm not sure who believes that at twelve, who believes anything except everything on the plate \vee on the screen

Leaving is the option, the best option, food could wait \wedge worry, but that leads to a conversation \wedge discomfort, like when a plane flies overhead and the whistling belays an of falling \wedge dropping.
